

INVITATION STYLE GUIDE

This section aims to provide a comprehensive description of each of the styles Pippa Jane offers- allowing you to make an informed decision for building your dream wedding stationery in a way that suits your wedding details as well as your chosen aesthetic for the day.

PRICING GUIDE

All invitation styles and coordinating stationery are priced according to volume and cost of materials needed, as well as the method in which the product is created - some styles require up to double the time and materials to create.

Prices listed are approximations only and can vary up or down according to which elements you choose to team your chosen style with. Budget options can also be explored in your consultation.

 High to low

 Most popular/frequently ordered

INVITATION STYLE

FLAT 5X7

VELLUM JACKET

4.80 PER PIECE WITH ALL EMBELLISHMENTS

Encased by a full vellum jacket, this invitation style is my most popular, looking beautiful with all in-house collections. This style is perfect to accommodate a response card (and envelope) or additional insert tucked inside to make it the perfect package for your guests. The vellum jacket style works beautifully with or without additional pieces of the suite.

VELLUM BELLY BAND

4.70 PER PIECE

Another hugely popular style, this vellum wrap embodies elegance and grace, making a beautiful package when teamed with a response card (and envelope) or additional insert tucked in to the belly band style wrap - but holding its own as a style without additional pieces of the suite.

RIBBON TOP-TIE

4.90 PER PIECE

A more minimalist no-fuss style, using a neckerchief tie as a top feature on this flat 5 x 7 invitation. Softening the look with a removeable vellum overlay, this is a popular style recommended for couples who intend to send an invitation only - without additional information insert.

5X7 FOLD

ENVELOPE FOLD

5.10 PER PIECE

Another very popular style, the envelope fold provides a unique style experience for you and your guests, its softness balancing well with ivory papers and hammered texture. Suitable style to include an additional insert as well as holding its own as a stand alone invitation. Separate printed wording is tucked inside so that it can be enjoyed more than once - without the need to cut it open to read.

TRI-FOLD RIBBON WRAP

5.60 PER PIECE

Using innovative paper mechanics and ribbon to tie which passes under the separately printed papers and right through the fold, this style actually forms its own envelope, making it a clean and classic style suitable to incorporate a Second page of text without the need for an insert, but keeping the price on par with others, given the lack of need for an envelope or dried flowers (which cannot be on the outside and posted without incurring damage). Don't be fooled by the initially perceived higher price - this style in fact works out a lower cost than a suite of other styles due to its integrated second page and envelope. It stands alone as a suite.

HALF-DOOR FOLD

5.00 PER PIECE

A variation on the envelope fold style, keeping the congruence of a printed paper insert that matches the same texture and shade of its cover, without the need to cut it to read - this style offers a glimpse to guests before revealing your chosen graphic and details. Suitable as a stand- alone invitation or with response card and/or additional insert card.

4 X 6

SLIDER
5.30 PER PIECE

This style has a real "wow factor" to it - a taste of what's to come for your guests in more than one way. While smaller once enclosed in an envelope, it makes up for its smaller size by opening and closing again with a double sliding mechanism, using a chiffon ribbon tie to operate the mechanism.
